

湛爽博士

珠海横琴濠麦科技有限公司创新部经理

毕业于香港大学比较内分泌学专业，获得博士学位。具有多年的生物学研究背景。博士期间主要研究瘦素和脂联素在各种细胞系和动物模型中对垂体激素的自分泌和旁分泌调节。曾任职香港新行健医药科技有限公司，负责产品质量控方法的建立及标准化。曾任职华大基因大健康部门产品经理，负责基因测序产品报告设计及更新。目前，在濠麦科技主要通过对专利、临床研究结果及科学文献等多类型数据进行挖掘及分析，筛选潜力药物及潜力靶点，并致力于建立药物靶点开发价值评估模型。

Dr. Shuang CHEN

Senior Researcher, Haomai Science & Technology Co., Ltd, Hengqin, Zhuhai, China

Dr. Shuang Chen obtained Ph.D. degree in Comparative Endocrinology from the University of Hong Kong. She has years of experience in biological research. Her past work looked at autocrine and paracrine regulation of pituitary hormone by leptin and adiponectin in various cell lines and animal models. She worked as Research Associate in Hong Kong New Beta Innovation Co., LTD., responsible for validation and standardization of protocols in quality control. She worked as product manager of Big Health Department in BGI Shenzhen headquarter, responsible for designing and updating reports of gene sequencing products. At present, she works as a manager of innovation department at Haomai science & technology Company, investigating potential drugs and potential drug targets by mining and analyzing multiple types of data such as patents, clinical research results and scientific literature, and is committed to establishing a model for evaluating new drug targets.
